

On August 8 (Wednesday) at 19:00 (7PM) there will be an introduction to fox hunting, and maybe an antenna building session for those that need to make up some direction finding antennas. It will be held in the same room as our monthly club meetings, 310 in the Douglas County Courthouse, the old building.

If folks bring the materials, there should be someone available to assist them in building the antenna. Some tools will also be available.

Information on what is needed, and how to build a hand held directional antenna can be found at these web sites...

[Build it: 2 meter Tape Measure Yagi Beam Antenna](#)

http://theleggios.net/wb2hol/projects/rdf/tape_bm.htm

http://www.harc.net/docs/2_meter_tape_antenna-2016.pdf

YouTube has many demonstrations as well.

The hunt will be in Roseburg August 18 (Saturday) from 14:00 (2PM) to 17:00 (5PM) or as soon as the last hunter comes in. The hunt will start at the County Courthouse.

After the hunt, we plan on a group gathering at Denny's for a no host "Debrief".

We are hoping for a good turnout, and folks having some fun in a different way with their Amateur Radio hobby.
